EDITOR'S DESK

Hello Residents, Families and Friends!

Happy June!!!!

This beautiful weather sure is a blessing that we are very thankful for as we start our outdoor improvements.

We have our raised vegetable gardens in now and our strawberry plants from last year are already producing fresh fruit for our resident friends to enjoy.

Family and friends are encouraged to come spend time tending and enjoying all of the new gardening areas around the building and in the courtyard.

Keep Smiling!

Inger

QUOTE OF THE DAY

“There is no growth without change, no change without fear or loss and no loss without pain.”

- Rick Warren

JUNE TRIVIA

June was the fourth month in the Roman calendar, which had only ten months. It was named after Juno, the Roman goddess of marriage, or the Latin word *juniores*, which means ‘younger ones’.

Gemini (May 21–June 20)

Cancer (June 21–July 22)

Gemini are represented by the symbol of twins in Astrology. This symbolism reflects Gemini's multifaceted and adaptable nature. They are known for their ability to switch between different interests and adapt to various situations with ease.

Cancer individuals have a strong connection to their emotions and can often sense the feelings of those around them. They have a natural empathetic and nurturing quality that makes them excellent caregivers and friends.

DID YOU KNOW?

June is often associated with weddings and is one of the most popular months for weddings around the world. This tradition may be rooted in ancient Roman times when Juno, the Roman goddess of marriage and childbirth, was celebrated in June. Couples believed that getting married in June would bring them her blessings and ensure a fruitful union.
